

ERRATUM / ERRATUM**Erratum: Laws of superposition of successive collinear Lorentz boosts****Adel F. Antippa**

Ref.: Can. J. Phys. **83**: 1101–1126 (2005).

On page 1113, in (80) and (81) the summation variable should be m (rather than j), and the lower limit of the summation should be 0 (rather than 1).

On page 1114, in (94) the exponent of the term $(1 - \beta^2)$ on the left-hand side should be $-n/2$ (rather than $n/2$).

On page 1115, in (103), (104), and (105) the exponent of the term $[1 - (\beta_G/n)^2]$ on the left-hand side should be $-n/2$ (rather than $n/2$).

The above erratum was compiled by Michel Trottier–McDonald to whom I am very grateful.

Received 13 November 2008. Accepted 14 November 2008. Published on the NRC Research Press Web site at <http://cjp.nrc.ca/> on 27 November 2008.
